STIHL

NEW

MS 400 C-M

MAGNESIUM PISTON CHAINSAW

66.8CC • 4.0KW • 5.8KG

Easy-to-manage, high-torque chainsaw for improved performance. Designed for forestry and arb professionals. The magnesium piston is 14% lighter than the aluminum piston in the MS 362 C-M, helping to ensure rapid acceleration. Bar length 16/18/20".

The MS 400 C-M has an impressive power-to-weight ratio of 1.45 kilograms per kilowatt, making it ideal to use when working in the forest, especially over prolonged periods. The MS 400 C-M features STIHL's latest M-Tronic 3.0 technology which has STIHL's simple re-calibration procedure and an improved HD2 filter, which all help deliver optimum performance from the saw at all times.

SAVE €387

● **STIHL ANTIVIBRATION SYSTEM**

Significantly reduces vibrations at the handles.

was €1476

€1,089

● **STIHL M-TRONIC (M)**

Takes external conditions such as temperature, altitude and fuel quality into account.

● **STIHL ELASTOSTART**

The compression shock is taken away from the user's joints and muscles.

● **STIHL 2-MIX ENGINE**

High torque over a wide speed range. Provides fuel savings of up to 20% and exhaust emissions are reduced by up to 50%

● **STIHL H2D FILTER**

The HD2 filter in our chainsaws guarantees consistent performance - even in extreme conditions. The filter keeps very fine dust and dirt away from the engine.

● **SIDE CHAIN TENSIONER**

The tensioning screw can be found on the side of the chain saw through the sprocket cover. This removes the need for contact with the sharp saw chain.

● **DECOMPRESSION VALVE**

A semi-automatic valve that's part of the easy starting system. It must be pressed manually before starting, but then closes automatically.

AL CHARGERS

STIHL batteries can be charged with either the AL 100 standard charger or the AL 300 respectively AL 500 quick charger. Each charger features a different charging capacity (Watt). The quick chargers have active cooling for even faster charging. In addition, the AL 500 features a housing base for wall mounting. When used for prolonged periods - by professional gardeners, for example - it is advisable to use two batteries to save time.

A comparison of battery charging times

Protection, day after day.

STIHL HP guarantees lubrication and protection from wear and thus helps to prolong engine life. It works reliably with little carbonization. STIHL HP leaves only a small amount of residue in the engine during combustion. That avoids pre-ignition, uncontrolled combustion and spark plug failure. The engine retains its efficiency for a long time.

STIHL

HERE TO HELP: YOUR STIHL APPROVED DEALER

Autumn / Winter Savings Now On.
Only at your local participating STIHL approved dealer. Your STIHL dealer knows exactly which applications a STIHL product is best suited to and will be happy to share valuable tips on using and caring for your tools.
