RIDE ON MOWER

656 cm³ • 8.7 kW • >8,000m² • 246 kg

High-performance ride-on mower with wide 110cm cutting width. Grass catcher box capacity: 350 Litres.

SAVE €439

was €4,539

€4,100

images are for illustration purposes only

INCLUDES
FREE Mulch Plug

● **SPRING LOADED & ADJUSTABLE SEAT**

The most comfortable seat position can be set without the use of tools. This allows individual adjustment of the driver's seat to almost any body size.

● **GRASS CATCHER BOX WITH BOW HANDLE**

The polymer grass catcher box can be emptied effortlessly from the driver's seat simply using the curved shaped handle. The "dumper" design ensures optimum filling and residual-free emptying of the grass catcher box. Cleaning the catcher box is also easy.

● **CENTRAL CUTTING HEIGHT ADJUSTMENT**

The lever to adjust the deck cutting height is located directly next to the driver's seat. It enables individual adjustment of the cutting height in up to eight steps.

● **MULCHING FUNCTION**

With the mulch insert, the STIHL ride-on mowers can be converted into mulching mowers. The grass catcher box is simply removed and the mulch insert pushed into the grass catcher chute. This allows the grass to be shredded into fine particles inside the closed housing before they fall back into the turf, returning vital nutrients and moisture to the soil. Through this natural form of fertilising, there is no need to dispose of the grass.

● **TURF TYRES**

The large turf tyres of the STIHL ride-on mower help to protect the lawn. Thanks to their rounded tyre design, they reduce the formation of driving tracks.

PETROL RIDE-ON LAWN MOWERS

€929

- CENTRAL CUTTING HEIGHT ADJUSTMENT**
Spring-loaded, which makes it easy to set the desired cutting height in several settings.
- EASY START ENGINE**
The engine starts up reliably and with minimal effort both during cold and warm starting.
- SMOOTH RUNNING WHEELS**
Extremely robust and hard-wearing.
- SUPER SOFT GRIP**
The super soft grip is comfortable to hold, especially when used over longer periods.
- FOLD-OPEN GRASS CATCHER BOX WITH LEVEL INDICATOR**
Can be easily opened and emptied thanks to its folding mechanism. The level indicator signals the correct time for emptying.
- MULTI-BLADE**
Thanks to the specially shaped cutting blades, the multi-blade shreds the mown grass.
- MULCHING FUNCTION**
The mulching blade shreds the mown grass before it falls back into the turf as a nutritional fertiliser.

iMOW® ROBOTIC LAWN MOWERS

MOBILE ACCESS VIA APP

The free iMOW® app can be accessed via smartphone or tablet, which means that many mowing settings can be made not only directly on the machine but also while on the move.

Power 0.7 kW, Displacement 22.7 cm³

75cm / 30" **€759**

APPROPRIATE PPE
AVAILABLE ON PAGE 34

MANUAL FUEL PUMP (PURGER)

A small fuel pump delivers fuel to the carburettor at the touch of a button. This reduces the number of starting pulls required following extended breaks in operations.

DOUBLE-SIDED CUTTING BLADE

The cutting blade is double sided. The sophisticated blade geometry makes for a job well done.

ANTI-VIBRATION SYSTEM

Intense vibration at the handles of power tools can lead to long-term effects on blood vessels in the hands and arms. STIHL has therefore developed an effective anti-vibration system whereby the oscillations from the machine's engine are damped which significantly reduces vibrations at the handles.

LONG-LIFE AIR FILTER SYSTEM

Ensures longer cleaning intervals and better protection of the engine.

ELECTRONIC IGNITION MODULE

This ensures reliable starting and trouble-free running. The ignition system is fully encapsulated and thus protected from damp and dirt.

PETROL LONG REACH HEDGE TRIMMERS

PETROL GRASS TRIMMERS AND BRUSHCUTTERS

HL 92 C-E

images are for illustration purposes only

- WINTER SETTING SLIDE CONTROL**
It is quick and easy to switch the setting from winter to summer using the slide control. Using the winter setting will prevent the air filter and carburettor from freezing.
- AIR FILTER WITH LONG SERVICE LIFE**
The easily accessible paper filter with a long service life means it can go for long intervals without changing.
- MANUAL FUEL PUMP (PURGER)**
A small fuel pump delivers fuel to the carburettor at the touch of a button. This reduces the number of starting strokes required following extended breaks in operations.
- BIKE HANDLE**
When used in conjunction with a harness, the bike handle enables a smooth mowing action. The bike handle allows the machine to be easily guided, making it ideal for working on large areas and thus reducing fatigue.
- REDUCED-EMISSION ENGINE TECHNOLOGY**
2-stroke engine with stratified charge. A fuel-free layer of air is created between the burned charge in the combustion chamber and the fresh charge in the crankcase, reducing the amount of fuel lost during the charge cycle. This results in more power with a lower weight, up to 20% lower fuel consumption than regular 2-stroke engines and significantly reduced exhaust emissions.

PETROL & CORDLESS KOMBI SYSTEMS

KM 56 RC-E
PETROL KOMBI ENGINE

27.2 cm³ · 0.8 kW · 4.3 kg

CORDLESS MOWER

18" / 46 cm • 25-75 mm • 23 kg **AKIII**

Battery mower with sheet steel housing.

€659

images are for illustration purposes only

INCLUDES
AK 30 battery &
AL 101 charger

BATTERY MOWER WITH SHEET STEEL HOUSING
Thanks to a torsion-resistant sheet steel construction, the housing is particularly robust. Durability during demanding use is therefore guaranteed.

CENTRAL CUTTING HEIGHT ADJUSTMENT
The central cutting height adjustment is spring-loaded, which makes it easy to set the desired cutting height in several settings. The current height is indicated by a scale.

STANDARD HANDLEBAR

STIHL POWERHEAD WITH AK SYSTEM

POLYMER GRASS CATCHER BOX WITH LEVEL INDICATOR
The plastic grass catcher box can be easily opened and emptied thanks to its folding mechanism. The current of air produced during mowing blows the clippings into the grass catcher box and ensures a high degree of filling. The level indicator signals the correct time for emptying. The airflow generated by the blade raises the level indicator.

INCLUDES
AP 300 S battery
& AL 101 charger

BATTERY MOWER WITH SHEET STEEL HOUSING

Thanks to a torsion-resistant sheet steel construction, the housing is particularly robust. Durability during demanding use is therefore guaranteed.

CENTRAL CUTTING HEIGHT ADJUSTMENT

The central cutting height adjustment is spring-loaded, which makes it easy to set the desired cutting height in several settings. The current height is indicated by a scale.

STANDARD HANDLEBAR

STIHL POWERHEAD WITH AP SYSTEM

POLYMER GRASS CATCHER BOX WITH LEVEL INDICATOR

The plastic grass catcher box can be easily opened and emptied thanks to its folding mechanism. The current of air produced during mowing blows the clippings into the grass catcher box and ensures a high degree of filling. The level indicator signals the correct time for emptying. The airflow generated by the blade raises the level indicator.

SPRING ESSENTIALS FOR THE GARDEN

For cleaning jobs around the home and garden and for car cleaning.

For cleaning garden furniture, stairways, walkways and terraces.

Versatile and handy.

Easy to transport and store.

**RE 90

STIHL ONLINE PARTNER

STIHL online partners are specialist dealers which also offer the STIHL catalogue range online in addition to their offline business. You can reserve products online from all STIHL online partners. You can buy selected products online from many dealers.

Authorised dealers feature the "STIHL Online Partner" logo and you can find them using the online Dealer Locator. For residents in Rep. of Ireland visit, www.stihl.ie

STIHL

A photograph of two men in a workshop setting. The man on the right, wearing a light blue polo shirt with a STIHL logo, is holding a chainsaw and looking at the man on the left. The man on the left is wearing a light blue button-down shirt and is smiling. The background shows shelves with various STIHL power tools.
